

## INS-OB, INS-OB-60 - External NO-contact button (also for Ø60 mm installation box)

External NO (bell type) universal button. In Aco systems, it can be used e.g. as a direct door opener (when leaving) or as a call to a selected apartment (depending on panel configuration). It can also be used as a doorbell (RING) call in selected receiver models. The INS-OB-60 version also has a white backlit button rim to make it easier to find a button in the dark.

Designed for flush or surface mounting after purchasing the optional INS-P-XXS NT box (for INS-OB) or for mounting in an electrical box Ø60 (for INS-OB-60).

Compatible with all digital group devices: CDN, Inspiro, Familio and COMO.

<b>Index</b>	INS-OB, INS-OB-60
<b>Description</b>	External NO-contact button (bell type)
<b>Material</b>	2mm thick brushed stainless steel flat front and button
<b>Dimensions (mm)</b>	77,6x77,6 Flush-mounting box (applies to INS-OB): 58x58x32
<b>Mounting</b>	INS-OB: flush-mounted, optional surface-mounting box: INS-P-XXS NT (80x80x34/25,5) INS-OB-60: flush-mounted in an installation box Ø60mm
<b>Installation type</b>	2 wires
<b>Power supply</b>	Optional button illumination (for INS-OB-60): 12VDC / 20mA
<b>Standby power consumption</b>	0,25W (Ref. INS-OB-60)
<b>Outputs</b>	Screw connectors: - NO contact, max. 2A, 36VDC
<b>Inputs</b>	Ref. INS-OB-60 Screw connectors: - Backlighting: white
<b>Attributes</b>	<ul style="list-style-type: none"> <li>- resistant to vandalism and weather conditions</li> <li>- working temperature: from -20 to 50°C</li> <li>- IP degree of protection for buttons: INS-OB: IP65, INS-OB-60: Ip67</li> <li>- White backlit button ring (applies to INS-OB-60)</li> <li>- to be mounted in an installation box with a diameter of Ø60 mm (applies to INS-OB-60)</li> <li>- conversion to surface-mounted version - optional mounting box required: INS-P-XXS NT</li> <li>- Recommended e.g. for the inside wicket/door to make it easier to open the wicket/door when leaving.</li> <li>- It can serve as a doorbell (RING function available in selected models of receivers/monitors).</li> <li>- can be used to make a call to the premises (depending on the settings of the device to which it is connected)</li> <li>- compatible with all ACO devices</li> <li>- in case of connecting a button with backlighting (INS-OB-60) to ACO devices, the backlighting power supply is provided on the same wires as the control (two wires between the ACO device and the button are required)</li> </ul>
