

Uniphones INSPIRO are modern devices with every detail designed to present the newest trends and meet the demands of all customers.

Minimalistic form and high functionality of our devices enables their wide usage in different kinds of investments.

Uniphones cooperate with digital CDN systems, as well as traditional – analog and cyfrowe/bartar systems.

All the devices produced by ACO are fully compatible with each other.

Distributor:

ATTENTION! Be careful not to let the dirt from the assembly into the electronic board, especially into the SW1 switch. It may be the cause of dirty contacts and uniphone malfunctioning.
