

Electric strike 112- - - - 11440D11

with short flat strike plate 114, 6-12 V AC/DC

Product description

Electric strikes for sliding doors

Overview of Advantages

- Water-proof for use outdoors

Technical data

Version	Sliding door strike
With mechanical unlocking	No
With feedback signal	No
How they work	Fail-locked
Adjustable keeper	No
Protective diode	No
Voltage	6-12 V
Type of current	AC/DC
Permanent operation (100% power-on time)	No
Mechanical unlocking	No
Max. latch preload AC	160 N
Min. preload AC	120 N
Max. latch preload DC	20 N
Min. preload DC	10 N
max. current consumption AC	550 mA
Max. current consumption DC	780 mA
Nominal resistance 12 V	7.7 Ohm
