LED line PRIME Panel Backlit 34W  
4000K 4760lm 60x60

The Backlit LED line PRIME panel is an ideal solution for the German market, where energy-saving and efficient light sources are needed for lighting projects. Its high lighting quality and low glare make it an excellent choice for office, retail, educational spaces and other places where comfort and lighting quality play a key role.

The luminaire has a backlit design, which means placing the LEDs on the back of the body to ensure high and uniform light output.

Lifud's robust power supply is a guarantee of trouble-free operation, but also a long life of the luminaire.

The luminaire provides high performance: an impressive luminous flux of 4760 lm and an efficiency of 140 lm/W. The luminaires are available with a 5-year warranty, giving you peace of mind that your investment in the panel is covered by the manufacturer's solid support and demonstrating confidence in the durability and reliability of the luminaires offered.

Backlit LED line PRIME panel is an excellent solution also because of the possibility of multiple mounting options. It allows flush mounting in modular suspended ceilings. It will also work well in cardboard/gypsum ceilings, using special brackets. Surface mounting is possible with a frame.

The luminaire is ENEC certified, confirming its high quality and compliance with European safety standards.

Yellow free technology means that the housing of this product is made of high quality material which is resistant to yellowing degeneration caused by UV radiation, thanks to which the product maintains its easthetic appearance for many years.

This product has been contrued with the use of high quality LIFUD branded driver.

The product has the prestigious ENEC certification, which confirms its superior quality, safety and compliance with stringent European standards.

Reliable photometric files are available based on photometric tests performed at the LED line® Light Research and Measurement Centre.

Manufacturer issues a 5-year warranty for this product.

FLICKER FREE™ system guarantees no harmful flickering effect and ensures safety for users' eyesight.
