**Table lamp MONJI 1,5W 200lm 3K IP20
10/50/100% 1800mAh orange LITE**

The 1.5W table lamp is a robust and modern product that will meet the expectations of even the most demanding customers. Solidly made, with a steel casing and non-slip base, it will be successful both at home and in a restaurant or café garden.

The lamp is operated in a simple manner, with the use of a single button, which also makes it possible to regulate the light's glow: 10/50/100% power. The lack of a mains power supply allows any location of the lamp, which after charging lasts up to 7 hours, ensuring the comfort of users.

The switch works by touching the sensor, which turns the lighting on or off. An additional feature of the switch is the stepless brightness adjustment. A short touch turns the lighting on/off. A long touch dims or brightens the lighting.

Ambient temperature suitable for operation

Manufacturer issues a 2-year warranty for this product.

Maximum time needed to charge the battery.

Beam angle

Parameter	Value
