

9711 Foam insert VDE screwdriver set 1, 16 pieces

Kraftform Plus – Series 100 VDE

EAN: 4013288225320

Part number: 05150102001

Article number: 9711

Size: 405x360x60 mm

Weight: 1856 g

Country of origin: CZ

Customs tariff number: 82054000

- High-quality, durable foam insert without chemical vapours
- Screwdriver with insulated blades for safe working up to 1,000 volt, five of which with reduced blade diameter for lower-lying screws
- Optimum fit for the best possible removal of the tools from the foam insert
- Water- and oil-repellent, low maintenance and easy to clean
- Protection of the tool from dirt and impact
- Smooth hard zones for high speed turning, soft grip zones for high torque transfer
- Take it easy tool finder: colour coding according to profile and size
- Hexagonal anti-roll feature against rolling away

Durable foam insert; two-coloured for quick identification of missing parts; suitable for the Tool Rebel roller cabinet, equipped with 14 Wera Kraftform VDE screwdrivers as well as two screw grippers.

Safe storage and quick overview

The tools sit securely in the foam thanks to precise contour cutouts, but are easy to remove. The carefully designed arrangement of the tools ensures space-saving storage and quick access to each tool.

Two-coloured foam insert

After removing the tool the light grey second foam becomes visible and therefore missing tools are quickly identified.

Individually tested tools as per IEC 60900 at 10,000 V

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

VDE-insulated screwdriver with reduced blade diameter

Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.

Lasertip

A precisely-focused laser creates a sharp-edged surface structure. Wera Lasertip "bites" itself into the screw head and prevents any slips out of the recess. It is available for screwdrivers for slotted, Phillips and Pozidriv screws.

Take it easy Tool Finder

Screwdrivers with Take it easy tool finder: colour coding according to profile and size stamp.

And this is how the gripper works

Push the screw gripper onto the tip of the screwdriver until the end of the blade protrudes from the rubber blade holder.

And this is how the gripper works

Pull the screw gripper towards the screwdriver handle until the two arms of the gripper sit against the head of the screw and are spread slightly apart. The Wera screw gripper releases the screw automatically after it has been fastened.
