DESCRIPTION

The RC3 inspection camera (digital) combines innovative technology with smart connectivity to make professional inspections easier and more precise. Equipped with a flexible dual camera system, it delivers images and videos in full HD quality. The RC3 app enables the preservation of evidence, image archiving and comprehensive documentation of recordings, and it allows for easy sharing of images and videos. Reports with a company logo and description can be sent as a PDF via email or WhatsApp. The camera is perfect for use in areas that are difficult to access because it can be controlled via WLAN using the RC3 app on a smartphone. Whether it's hollow walls, pipes with an internal diameter of 14 mm or ventilation systems, the RC3 delivers razor-sharp images, can be conveniently operated via mobile devices and has an IP67 protection class. It should be noted that the camera can only be used in combination with the RUNPOTEC cable pulling systems (GF3, GF4.5, GF6, RUNPOSTICKS and RP1), with different systems being used depending on the application.
